Date of birth: 27/09/1998 | **Gender:** Male | **Phone number:** (+40) 751484283 (Mobile) | **Email address:** alex_simon_15@yahoo.com | **Address:** Bucharest, Romania (Home)

● ABOUT ME

Motivated and detail-oriented Web Developer with over 3 years of professional experience specializing in React and Salesforce. Proficient in developing and maintaining dynamic, user-friendly web applications. Demonstrates a strong ability to collaborate with cross-functional teams, manage multiple projects simultaneously, and deliver high-quality code that meets client specifications. Possesses excellent problem-solving skills, a keen eye for detail, and a commitment to staying current with emerging technologies to drive innovation and efficiency.

● WORK EXPERIENCE

12/2023 – 10/2024 Bucharest, Romania

REACT DEVELOPER FREELANCER

I provided specialized web development services to a diverse range of clients, focusing on building and enhancing dynamic, responsive web applications. My role involved:

- Designed, developed, and maintained user interfaces using React, ensuring a seamless and efficient user experience. Utilized advanced JavaScript (ES6+), JSX, and React libraries to create reusable components and manage application state.
- Worked closely with clients to gather requirements, define project scopes, and deliver customized solutions that met their unique business needs. Provided regular updates, gathered feedback, and made iterative improvements to ensure client satisfaction.
- Integrated third-party APIs and services into React applications, facilitating smooth data flow and enhancing functionality. Utilized tools such as Axios or Fetch for efficient data retrieval and manipulation.
- Maintained high standards of code quality by adhering to best practices, conducting thorough testing, and performing code reviews. Utilized version control systems like Git for collaborative development and efficient project management.

01/2022 – 09/2023 Bucharest, Romania

BACKEND DEVELOPER OSF DIGITAL

Worked on various e-commerce projects as an SFCC developer and also using React for the UKI DC. Regular activities:

- Adding new functionalities to existing websites.
- Bug solving, keeping close touch to QA team for support or requirements discussions.
- Collaborated with coworkers from various projects and countries. Building manageable components, providing the clients with the ability to change content.
- Respecting coding standards, best practices.
- Google Tag Manager and Google Analytics, implementing tracking events across the website.
- Working locally or on Git, handling branches, daily commits, pull request reviews.
- Worked with AGILE and SCRUM methodology, daily calls.
- Respecting deadlines and task estimations.
- Self and peers reviews.
